Eat what you enjoy and take the Drops.
There is a transition but if you take the Drops, you can eat what you enjoy.
Trust that everything will be fine.
You'll start craving what your body wants.
Relax and allow and enjoy your relationship with your body.
Your food will find you.
Weaning off her neurontin.
Never took another one and have not minded any withdrawal symptoms.
Have had a very relaxed week.

Bunions

RNA Drops, could they help?
Get your feet in epsom salts baths.
Stopped the RNA Drops and products.
Wondered about getting back to some of them.
Issues about the expense.
Look at how they are working for you rather than the expense.
If you replace ReLyte, you have to buy 12 bottles of minerals.
I'm encouraging you to get on and stay on the whole complement formula.
Discussion of cost effectiveness of our products vs replacing them
No other products are 100% bioavailable
Cancer Is Not a Disease, It's a Survival Mechanism
Stop worrying about radiation
Our bodies should be able to cope with whatever we create.
We have to get beyond the negativity of the media.
Human genome modified at a cellular level by the influence of frequency, magnetism, hydrogen, carbons, and oxygen.
We are talking about how biological sugars work in the body.
How that system effects the mitochondria through the lipid system.
Epigenetics are starting to get there.
Each cell can produce adrenaline and other stress hormones.
Not just the adrenals.
It does so when you experience an internal or external threats that trigger flight or fight response.
Food additives, drugs, anger, anything.

Under the influence of the secreted stress hormones, normal cell functions are under mined.

In fact genetic blueprint receives distorted information.

Drops effect RNA through Chromosome 14.

Chromosome 14 effects change.

This can be adjusted by our non-physical.

Discussion of iON as intelligence behind the products.

Answer to Cancer Series.

Substance is an improved water that works on the cellular level.

Everything is about the cell.

Peripheral neuropathy

Pain in hands and feet.

ReMag and ReLyte in spray bottle.

I have not had pain relief like this for years.

I got immediate relief.

What a miracle!

Willing to do this because pain sucks.

Spraying on hubby's painful knee. Is helping so much.

Savannah came home from college.

Gave her ReMag/ReLyte in a spritz bottle.

She gave up her cosmetic spritz.

Made her face so smooth.

6'6" 230 lbs. 33 years old

RBC Magnesium 5.8

6.0-6.5 is optimum range

That's a decent Magnesium RBC level.

I'd go ahead and do the ReMag.

If you have lots of symptoms, one would go slowly.

You could probably dive right in and start with the maintenance dose.

Is it good to start the RNA Drops?

Yes, read the label for instructions.

Taking RNA Drops for a year.

Left knee cartilage injury.

Injury 6-8 months. Painful.

Rub ReNew around the injury.

Spray ReMag on left knee.

Let dry. Spray again. Layering effect.

Total Biology - Knee is about forced obedience. Conflict between me and my family. It's a kneeling to someone who you don't want to kneel to.

Left side in a righthanded person is extended family, work, etc.

Looking at layers and levels here.
Daughter experiencing daily fevers for two years. Fatigue due to fevers.
Tests and no one knows what is happening.
Not enough information to address straight fever.
Do know that magnesium regulates temperature.
So does the thyroid.
Even with thyroid testing it can be effected and have temperature regulation problems.
If it were me, I would do the entire program.
They probably looked at bacteria and viruses.
I'd look at yeastconnection.com.
How do RNA Drops work for African Americans?
Not race specific.
It does take time. For some people you need to eat them more than one month.
Works on anything that has a DNA chain.
Have been taking complete package.
Have mouth full of mercury.
Why not swish minerals when you have mercury?
Metals work together. Could pull mercury out in a galvanic reaction.
A chunk of mercury fell out.
The Drops don't do that sort of thing.
It might create a galvanic response.
Wouldn't attribute that to the Drops.
Good that is dropped out cause you could get a non-toxic filling.
Pulls mercury vapor due to chemical reaction from your teeth.
Some get a metallic taste.
Is it okay to use ReNew and RNA Drops together?
A lot of people slather it on their face.
Don't compare what they use on their skin with the number of oral drops.
I am going to book at consultation.
Should I do a magnesium rbc test first?
Should I do a yeast test first?
Only viable one is questionnaire on yeastconnection.com
requestatest.com
Really thorough history would be helpful.
Don't need medical records.
In your words, what have you gone through?
Having physical sensations I've never had

before because of the medication.

Just getting your chemical body back.

It was taken over by the drugs.

Releasing chemical, and it's itchy.

Non-Sleeper

Epsom salt baths, ReMag at night,
exercises, sleeping well for 3 weeks.

Spritz is 50/50 ReMag/ReLyte

Cavity in center of molar

Healed and sealed over.

Cut finger and got drops of blood on glasses.

Three hours later it still was there.

Helen had bad neck pain. Put ReNew on it.

Within 15 or 20 minutes the pain was gone.

Remineralization of the tooth.
